BLOOD BANKING TOOLS

GCMS is one of the first-generation service providers of vitro diagnosis, which used import in the 1960s and 70s. The company dates back to 1972 when GCMS jumped into the in vitro diagnosis business by setting up a dedicated organization and has achieved phenomenal growth. GC Pharma spun off its Diagnosis Business Division to set up an independent corporation dedicated to diagnostic reagent in 2004. GC Pharma has made remarkable contributions in leading the growth and development of diagnosis industry for the past four decades.
